Participating Jurisdictions

July 28, 2022

RE: Hayes, Hitchcock, and Frontier Counties
Hazard Mitigation Plan Round One Public Meeting

Dear Hazard Mitigation Planning Participant,

Hayes, Hitchcock, and Frontier Counties are beginning the first phase of their Hazard Mitigation Plan update. A hazard mitigation plan examines regional and local vulnerabilities to a range of hazards (i.e. flooding, severe winter storms, drought, hazardous materials, etc.) and identifies strategies and projects to reduce their impact. Your jurisdiction is required to attend a meeting in order to participate in the plan. Once a community, county, or district (School District, Fire District, Irrigation District, etc.) is part of an approved plan, they become eligible for up to a 75% cost share from the Federal Emergency Management Agency (FEMA) for a variety of projects listed in the plan. **FEMA directives state that each jurisdiction must participate directly in the plan to be eligible for this funding.**

The plan update and approval process will last 10 months and will include two rounds of public planning meetings. **FEMA requires at least one representative from your jurisdiction to attend planning meetings.** Please **attend one** of the upcoming meetings shown below. Each meeting will last approximately 1 hour and can be attended in-person, virtually online, or by phone.

The first round of planning meetings will be held in:

RE: Hayes, Hitchcock, and Frontier Counties Hazard Mitigation Plan Update –
Public Review and Adoption

Dear Hazard Mitigation Planning Participant:

The Hayes, Hitchcock, and Frontier Counties Hazard Mitigation Plan has begun its Public Review Period and the current draft is available for review online. This draft includes the latest revisions following the second round of meetings. You may review the draft plan at the project website: <https://www.jeo.com/hhf-hmp>.

The plan is available for public comment from Monday, February 20 to Tuesday, March 21, 2023. At the end of the Public Review Period, the completed plan will be submitted to the Nebraska Emergency Management Agency (NEMA) and the Federal Emergency Management Agency (FEMA) for final approval. This is your last opportunity to review the plan and submit to JEO any requested changes or corrections, prior to its submission to NEMA and FEMA.

Please carefully review this draft with your local planning team and verify that the information therein is accurate to the best of your knowledge. Please inform JEO as soon as possible should you desire any changes. To request changes, you can mark up a section, scan it, and email it to kdietrich@jeo.com; fax it to (402) 435-4110; or use the comment box on the project website. If JEO does not receive changes from you by Tuesday, March 21, we will assume that your jurisdiction has reviewed the plan and approves of it as written.

At this time, jurisdictions may also adopt the plan locally. Adoption would apply to the eventual FEMA-approved version of the plan. Attached is an example resolution that you may use or adapt to fit your local needs.

After local adoption and FEMA approval, your jurisdiction will become eligible for FEMA project grant funding to assist with implementation of actions in this plan. The adopted resolution must be returned to JEO Consulting Group for submittal to NEMA and FEMA. Send a copy of the signed, adopted resolution to JEO Consulting Group via email at kdietrich@jeo.com; fax to (402) 435-4110; or mail to:

Hayes, Hitchcock, and Frontier Counties Hazard Mitigation Plan

Project Purpose

Hayes, Hitchcock, and Frontier Counties are updating their Hazard Mitigation Plan (HMP) with assistance from JEO Consulting Group. An HMP is a community-guided document which identifies vulnerability to natural and man-made hazards and mitigation projects to reduce or eliminate such risks. Having an approved HMP is a requirement of the Federal Emergency Management Agency (FEMA) for jurisdictions to become eligible for several grant funding options. Having an approved and updated plan enables jurisdictions to be stronger and more resilient by:

1. Reducing your jurisdiction's risk and impacts from disasters;
2. Gaining eligibility for pre- and post-disaster mitigation grants; and
3. Builds partnerships and relations with stakeholders.

Hazard Mitigation Plans are required to be updated and approved every five years. The counties last updated their HMP in 2018. The counties, communities, schools, fire districts, irrigation districts, stakeholders, and neighboring jurisdictions are invited to participate in this process by attending meetings and providing information for the plan.
